MU HEALTH CARE DTE OPPORTUNITY PROPOSAL

OPPORTUNITY REVIEW

Prepared by Derek Moore
VP of DTE Networks
February 19, 2026

EXECUTIVE LETTER

Dear MU Health Care Leadership Team,

On behalf of Key Benefit Administrators, I am pleased to present this partnership proposal. With almost 50 years of experience, KBA today is the nation's largest, privately-held TPA. We are proud of our track record of providing exceptional health plan management to the self-funded industry, helping health systems successfully launch and manage direct-to-employer (DTE) health plans since 2016.

At Key Benefit Administrators, we are committed to being part of the solution for systemic healthcare challenges. Our approach centers on transparent cost administration, ensuring benefits are completely free from 'shared savings,' 'spread pricing,' and other practices that divert money away from patient care. We also believe integrity and core principles are central to strong healthcare systems, which is why we have never participated in reference-based pricing or similar practices.

Our decade of DTE experience has taught us that having the right market partner is critical to success. We actively market and sell our partners' healthcare services, understanding that their reputation forms the foundation of plan success. For this reason, we carefully research and vet every potential partner, often turning down health systems that lack the necessary market reputation or access.

MU Health Care stands apart as one of the very best positioned health systems regionally to support its own health plan. We would be honored to partner with MU Health Care and are confident in the plan's success. We look forward to discussing how our partnership can deliver exceptional value to the employers and employees you serve.

Sincerely,

Derek Moore
Executive Vice President, DTE Networks

OUR 'WHY': THE PHOTO MOMENT

THE KBA REWARD THROUGH SEEING A DIFFERENCE

Better Care, Lower Costs, Real Partnerships

- All Stakeholders at the Table (Employer, Provider, KBA, Broker/Consultant)
- Reviewing Real Progress (Improved Population Health and Lower Spend)
- Deep Loyalty Between Employer and Provider Organization Built on Value

Financial Savings & Return On Investment

with the Health Care Nurse Navigator Chronic Disease Management Program

AHDI has five different statistically validated ROI studies performed in 2006, 2008, 2010, 2014 and 2021. All studies support a consistent and increasing reduction of medical spending between 11-17%.

2021 CDM Analysis Once Again Validates the Value of AHDI's CDM Program

Summary:
This study used claims on 100,000 plus CDM members with continuous enrollment over a two-year period.

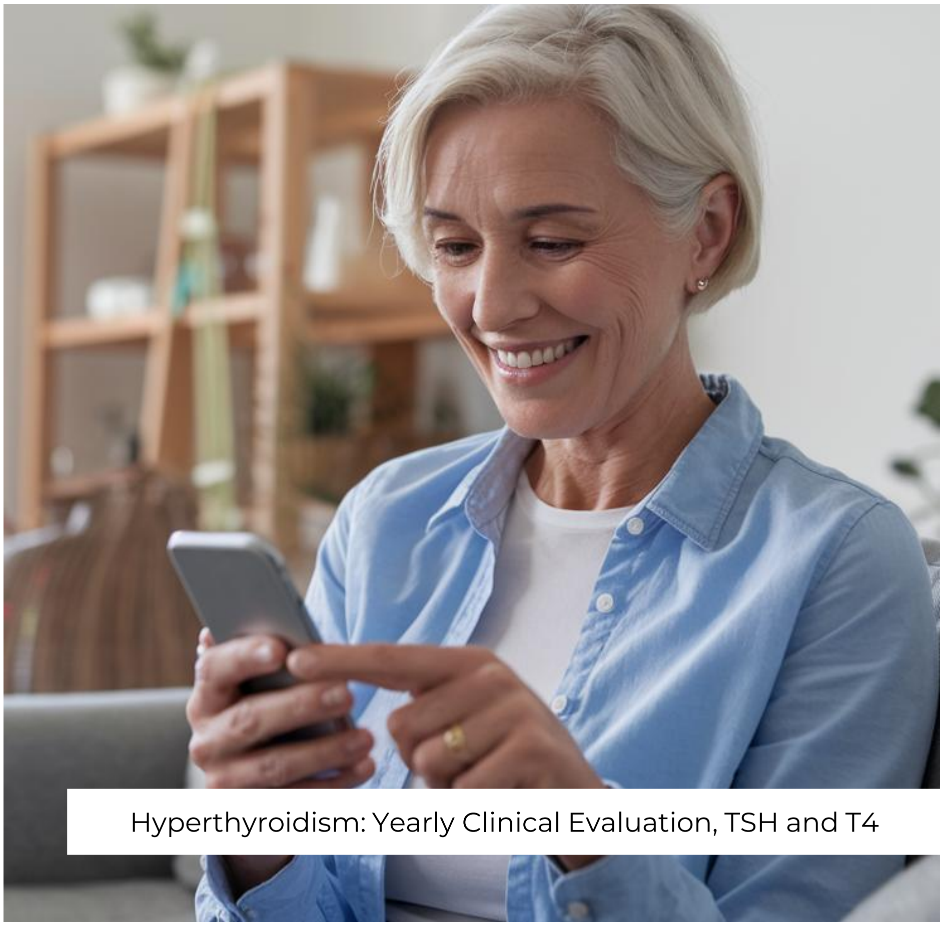
Discussion:
A fixed effects least squares regression model was used in this analysis. The use of a fixed effects model controls for price variation between healthcare markets.

Findings:
Participation in the AHDI Chronic Disease Management program was associated with a continued average reduction in claims cost of 11% to 17%, at the 90% confidence interval. This results in an average Return on Investment of 14 to 1. These results are consistent with those of the prior five studies conducted on the CDM program.

PARTNERING FOR POPUATION HEALTH

INCLUDED: INTEGRATION WITH ORACLE CERNER EHR SYSTEM

KBA shares evidence-based standards of care for 27 chronic conditions directly into the local EHR (often Epic or Oracle Cerner)



Hyperthyroidism: Yearly Clinical Evaluation, TSH and T4

THE MISSING PIECE TO VALUE-BASED CARE

- Patient engagement is the weak link in delivering value-based care; MU Health Care's clinical leadership and employer participation can drive better outcomes.
- KBA's proactive care-management team supplements your care-management efforts in outreach to clients.
- MU Health Care excels in Standards of Care completion rates for the Chronically Ill, improving care and costs.
- Integrating MU Health Care's managed care with KBA's programs positions MU Health Care as the value leader.
