Our Founding and Heritage:

46 Years of Striving for Honesty in Healthcare

Founded Key Benefit Administrators in 1979

After co-founding a life insurance agency in 1973 and Key Life Insurance in 1976, Larry Dust launched KBA in 1979 as a third-party benefits administrator focused on honest healthcare delivery.

Sold to Blue Cross/Blue Shield in 1985

Strategic partnership with BCBS of Indiana (then part of the Associated Group) provided capital and market access while maintaining operational independence.

Reacquired KBA in 1992

Larry bought the business back from BCBS in 1992, returning it to complete independence and patient-focused mission alignment.

Built the Largest Independent TPA in the U.S.

Under his leadership since the buyback, KBA has become the country's largest independently owned third-party administrator, managing millions of members across diverse markets.

Never Forgotten Who Gives Healthcare

KBA has never participated in reference-based pricing, does not take refunds, and delivers healthcare at 11% below market rates. Our commitment remains with providers and patients, not profit extraction.

MODEL ASSUMPTIONS AND BREAK EVEN

Patient Steerage Assumptions

KBA currently estimates that CentraCare Health System has 68% inpatient market share, and 36% outpatient market compared to hospitals/clinics in the CentraCare Health System service area (see slide 8). The DTE tiered structure will create immediate steerage, with additional steerage over time from patient bonus benefits and the patient convenience card (see slide 34 for estimates of target steerage).

Low	High
10% below target	10% above target

Commercial Margin Assumptions

KBA observes a CentraCare 23% commercial margin. Conservatively, we model the DTE to be even with commercial rates given prices 10% below market, but with a 10 percentage-point increase through friendlier billing practices and improved patient collections with the patient card.

The Key Incentive Plan

Affordability Without Compromise

The **Key Incentive Plan** is a one-of-a-kind solution, empowering employers to take back control of their healthcare programs, that offers freedom of choice when choosing providers in your local community, while incenting members to choose high-quality, cost-effective care.

The Key Incentive Plan

Base Medical + Preferred Plus Benefits = Your Deductible Can Simply Vanish

Example: Member with a \$2,500 deductible / \$4,500 max out-of-pocket has a heart attack and cardiac surgery, resulting in a 5-day in-patient stay. In this example, the member would have a \$4,500 OOP with \$5,050 Preferred Plus Benefits for a **net OOP \$0 due to the preferred provider versus \$4,500 OOP exposure at any non-preferred provider.**

Weight Management (GLP-1s) that Don't Break the Bank

The GLP-1 medication market has experienced explosive growth, fundamentally reshaping healthcare spending across America. Prime Therapeutics reports that per-member-per-month spend has tripled by March 2025, with these breakthrough medications now representing approximately 15% of total pharmacy spend. More than 1 in 50 members filed a GLP-1 claim in Q1 2025 alone, demonstrating unprecedented demand for these life-changing treatments.

The Challenge

Traditional GLP-1 medications cost between \$1,089-\$1,349 monthly, creating monthly, creating unsustainable budget pressures for employers while limiting employee access to essential treatments.

Our Solution

Key Benefits secures generic GLP-1 medications for just \$249 per month, enabling comprehensive workforce health while maintaining strict budget control and financial stability.

The Impact

Deliver a healthier population, increased employee satisfaction, and sustainable costs that support long-term organizational success and success and employee wellbeing.

Proven Results: \$7M Annual Savings

One major city spending \$11 million annually on GLP-1 medications achieved \$7 million in cost savings through our comprehensive approach. This dramatic reduction demonstrates how strategic sourcing combined with clinical support creates sustainable, scalable solutions for large employers facing escalating pharmaceutical costs.

Beyond Medication: Comprehensive Care

Our program extends far beyond cost-effective medication access. Members receive specialized coaching twice monthly, focusing on maintaining muscular strength, engaging in moderate exercise, and developing sustainable lifestyle changes that support long-term weight maintenance after GLP-1 treatment completion.

Values in yellow are taken from Definitive Healthcare data.

Total Medicare patient revenue is reported by CMS in the Medicare Provider Analysis and Review Report (MedPAR)

Estimating Payer Mix

- Medicare, Medicaid, and other government payer mixes are estimated as the percentage of inpatient days for each group divided by total inpatient days.
- No-pay and charity care is estimated as the percentage of no-pay/charity care compared to total overall revenue.
- Commercial/self pay is assumed to be the rest of the total payer mix share.

Estimating Total Inpatient Days

- Total inpatient days for 'No Pay' and 'Commercial' are estimated to be the payer mix estimates for "No Pay, Charity Care" and "Commercial/Self Pay" multiplied by the total number of inpatient days.

In other analysis, the outpatient payer mix is assumed to mirror the inpatient payer mix.

KBA currently estimates that CentraCare Health System has 68% inpatient market share, and 36% outpatient market compared to hospitals/clinics in the CentraCare Health System service area (see slide 8).

Based on previous DTE experience, KBA expects a significant bump in patient steerage to CentraCare Health System.

Additional steerage will occur from additional steerage patient benefits and the patient convenience card.

High estimates start nearly 10% higher than target with low estimates at 10% lower than target
