Our Founding and Heritage: 46 Years of Striving for Honesty in Healthcare

Founded Key Benefit Administrators in 1979

After co-founding a life insurance agency in 1973 and Key Life Insurance in 1976, Larry Dust launched KBA in 1979 as a third-party benefits administrator focused on honest healthcare delivery.

Sold to Blue Cross/Blue Shield in 1985

Strategic partnership with BCBS of Indiana (then part of the Associated Group) provided capital and market access while maintaining operational independence.

Reacquired KBA in 1992

Larry bought the business back from BCBS in 1992, returning it to complete independence and patient-focused mission alignment.

Built the Largest Independent TPA in the U.S.

Under his leadership since the buyback, KBA has become the country's largest independently owned third-party administrator, managing millions of members across diverse markets.

Never Forgotten Who Gives Healthcare

KBA has never participated in reference-based pricing, does not take refunds, and delivers healthcare at 11% below market rates. Our commitment remains with providers and patients, not profit extraction.

Patient Steerage Assumptions

KBA currently estimates that Orlando Health has 24% inpatient market share, and 12% outpatient market compared to hospitals/clinics in the Orlando Health service area (see slide 8). The DTE tiered structure will create immediate steerage, with additional steerage over time from patient bonus benefits and the patient convenience card (see slide 33 for estimates of target steerage).

Commercial Margin Assumptions

KBA observes a Orlando Health 23% commercial margin. Conservatively, we model the DTE to be even with commercial rates given prices 10% below market, but with a 10 percentage-point increase through friendlier billing practices and improved patient collections with the patient card.

Estimating Payer Mix

- Medicare, Medicaid, and other government payer mixes are estimated as the percentage of inpatient days for each group divided by total inpatient days.
- No-pay and charity care is estimated as the percentage of no-pay/charity care compared to total overall revenue.
- Commercial/self pay is assumed to be the rest of the total payer mix share.

Estimating Total Inpatient Days

- Total inpatient days for 'No Pay' and 'Commercial' are estimated to be the payer mix estimates for "No Pay, Charity Care" and "Commercial/Self Pay" multiplied by the total number of inpatient days.

In other analysis, the outpatient payer mix is assumed to mirror the inpatient payer mix.
